

LIGHT & SPORT AVIATION

*Compact, light-weight communication,
navigation and surveillance systems
delivering performance and reliability
without compromise.*

BECKER

BECKER

Becker Avionics provides communication, navigation, surveillance and search & rescue equipment for airborne and ground applications. Reputed for our premium quality and undisputed reliability for over 60 years, we deliver customer-centric solutions engineered to sustain the harshest mission environments and safety requirements. Every day, thousands of pilots, air traffic controllers and mission operators rely on our technology around the world.

We work hard every day to exceed their expectations.

LIGHT & SPORT AVIATION

Since 1956, Becker has been designing premium class radios and transponders for the light and sport aviation for a wide range of aircraft types. This constant quest for excellence, which still drives the brand today, has been continuously inspiring thousands of pilots across the globe for over more than six decades.

- Our products are designed according to the most stringent **international standards and regulations**, for your safety.
- Our radios and transponders are manufactured to guarantee the **best customer experience**, even after thousands of flight hours.
- The Becker Light & Sport Aviation line benefits from the same manufacturing and testing procedures as our professional grade avionics, **resulting** with a genuine care of **precision and quality**.
- The AR620X and BXP640X families **show market leading reliability figures** and receive 5-year full warranty coverage.

BENEFITS

Available in remote or panel mount versions, our VHF radios and Mode S transponders provide outstanding user experience with clear sunlight readable displays, compact design and plenty of different installation options.

The pilot-friendly user interface offers enhanced safety thanks to the panel safe-lock feature which prevents false manipulations in rough air or unusual flight conditions.

OUR PRODUCTS

COMMUNICATION

AR620X FAMILY

- > **high-quality aircraft radios** optimized by state-of-the-art functionalities
- > **compact dimensions, low weight**
- > **market leader for their reliability**, highest manufacturing standards in the Light & Sport Aviation segment

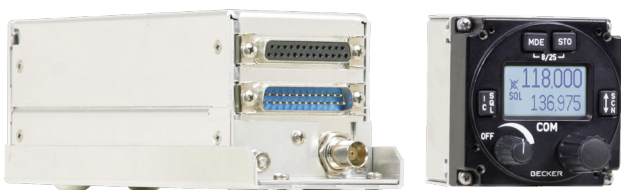

AR6203

watt	Khz	Mount.
6 10	8.33 25	160 mm

AR6201

Mount.	tandem mode
2 1/4"
